

How to Use Voice Cold Calling Agent

Follow just a few simple steps.

A) How to Make Bulk Calls

1. Click on “New Campaign”

2. Click on the “+” icon : and upload your CSV file/Google Sheet containing your lead data. The AI agent will call these leads.

Note: The phone numbers you add in the sheet/CSV file must include the country code. (Example: +1 2025550147)

3. Write your script in the box :

First message : First message the AI will say after the call is picked by someone.
(example: Hii, I’m Robert from digital marketing agency.)

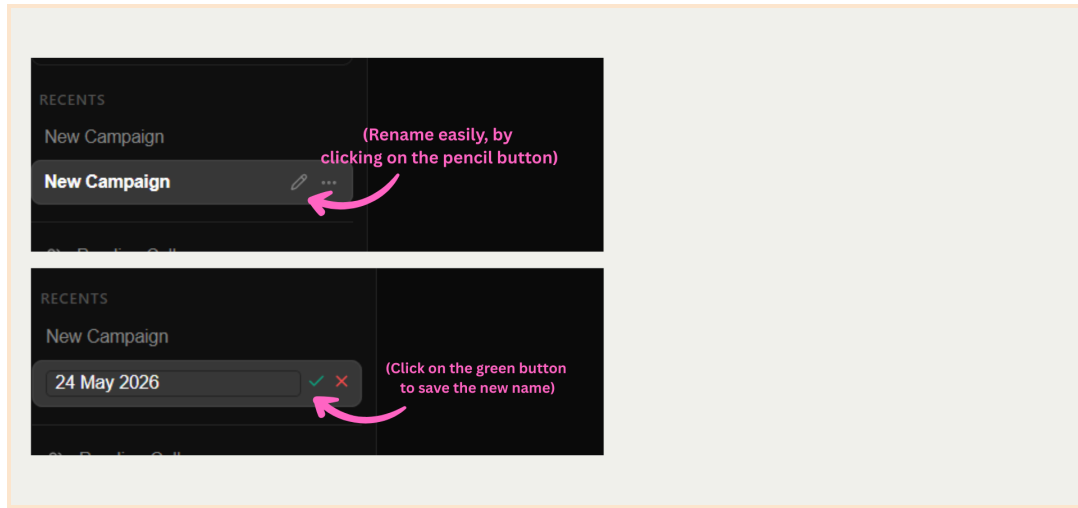

Description / script : The AI agent will use this script while talking to your leads. You can write about your service so the AI agent can explain it on all calls.

Example:

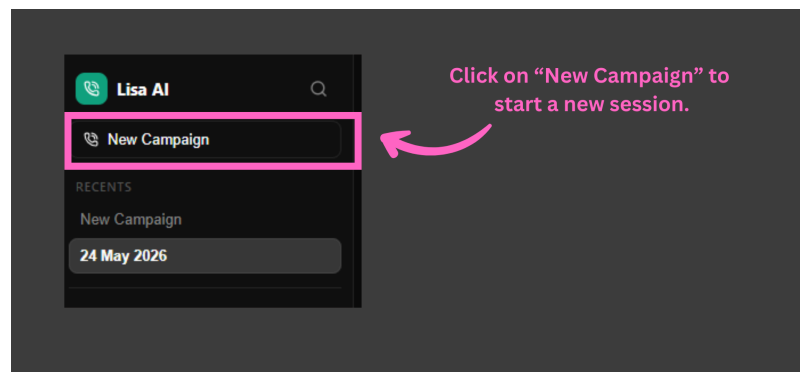

Hi, this is Jessica from a social media management agency.
We help businesses manage and grow their social media pages.
Our services include:

- Instagram & Facebook management
- Content posting and page growth
- Lead generation and audience engagement

B) Rename and New Session

1. You can rename the campaign anytime by clicking on the pencil button.

2. You can also start a new session anytime by clicking on the "New Campaign" button.

C) Call History :

1. Use filters like 7D, 2W, 4W, 3M, or Custom to check call data for different time periods.

The screenshot shows the 'Call History' section of the Lisa AI dashboard. The left sidebar has 'Call History' selected. The main content area shows a table of call records. Above the table, there are filter tabs for time periods (7D, 2W, 4W, 3M, 1Y, Custom) and a dropdown for 'All Types'. A pink box highlights these filter controls, and a pink arrow points to them with the text '(Set filters if you want)'.

ASSISTANT NUMBER	CUSTOMER NUMBER	TYPE	ENDED REASON	START TIME (GMT + 5:30)	DURATION	COST	OUTCOME	RECORDING
Web Call Lisa AI Agent	+18439161267	outboundPhoneCall	call.start.error-get-transport	N/A	-	\$0.00	PENDING	View

2. Below, you will see 9 columns:

The dashboard tracks your performance across 9 detailed columns:

Column Name	Description / Function
ASSISTANT NUMBER	The dedicated AI number used to dial your leads. (Custom number setup available via the requirements form. Recommendation: Use the AI number to keep your personal number private).
CUSTOMER NUMBER	The phone numbers of the leads that have been called.
TYPE	Shows whether the call was Inbound (incoming) or Outbound (outgoing).

Column Name	Description / Function
ENDED REASON	The specific reason why the call was disconnected.
START TIME (GMT+5:30)	The exact date and time the call was placed to the lead.
DURATION	Total talk time between the AI agent and your customer.
COST	The exact credit amount consumed during the call.
OUTCOME	Automatically tags the lead motivation status: • Interested: Lead showed positive interest in your service. • Not Interested: Lead declined the offer. • Pending: Lead didn't pick up, was busy, or asked to be called back later.
RECORDING	Click the "View" button to read the full conversation transcript and review what was discussed.

D) Pending Calls

-- You can download all pending calls by clicking on the “Download All Pending Calls CSV” button.

The screenshot shows the 'History' section of the Lisa AI dashboard. A pink box highlights the 'Download Pending Leads (CSV)' button in the top right corner. A pink arrow points from the text 'easily download all pending calls.' to this button. Below the button is a table of call history.

ASSISTANT NUMBER	CUSTOMER NUMBER	TYPE	ENDED REASON	START TIME (GMT + 5:30)	DURATION	COST	OUTCOME	RECORDING
Web Call Lisa AI Agent	+18439161267	outboundPhoneCall	call.start.error-get-transport	N/A	-	\$0.00	PENDING	View
Web Call Lisa AI Agent	+919528719763	outboundPhoneCall	customer-did-not-answer	N/A	-	\$0.00	PENDING	View
Web Call Lisa AI Agent	+919149087340	outboundPhoneCall	customer-ended-call	22 May 2026, 02:41 pm	18s	\$0.03	NOT INTERESTED	View
Web Call Lisa AI Agent	+919528719793	outboundPhoneCall	customer-ended-call	22 May 2026, 02:41 pm	5s	\$0.01	PENDING	View
Web Call Lisa AI Agent	+918439161267	outboundPhoneCall	customer-did-not-answer	N/A	-	\$0.00	PENDING	View

-- Later, upload the CSV again in the dashboard, write your script, and run the pending calls again.

OR

The screenshot shows the 'Pending Calls' section of the Lisa AI dashboard. A pink box highlights the 'Run Pending Calls' button. A pink arrow points from the text '2.' to this button. Below the button is a table of pending calls.

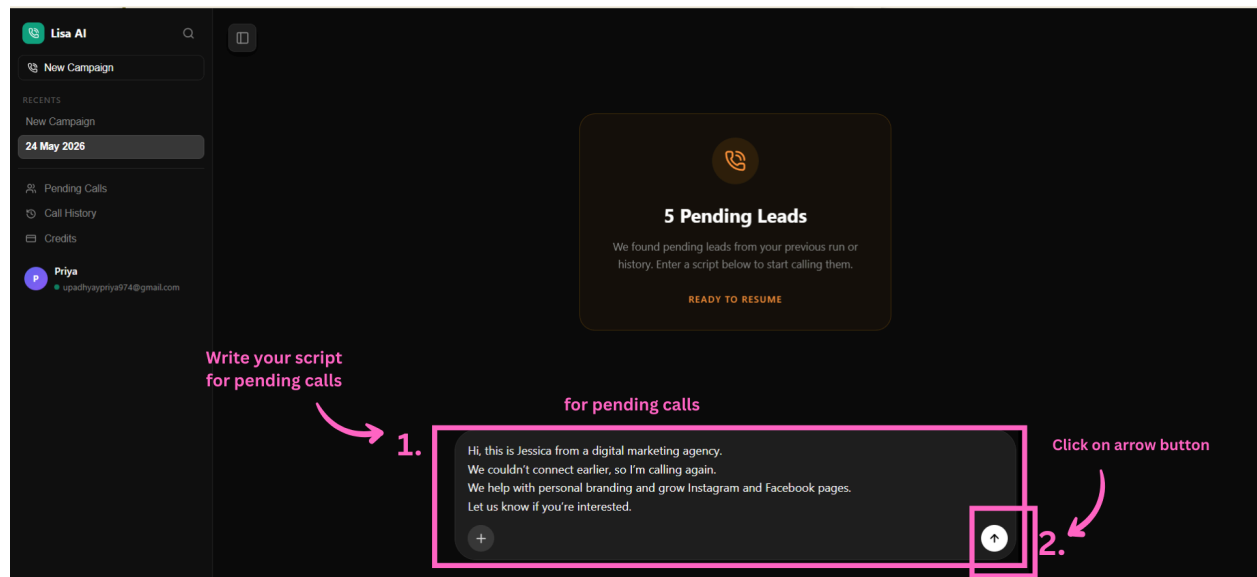

PHONE NUMBER	DATE ADDED	STATUS	ACTION
+18439161267	N/A	PENDING	Delete
+919528719763	N/A	PENDING	Delete
+919149087340	22 May 2026, 02:41 pm	PENDING	Delete
+919528719793	22 May 2026, 02:41 pm	PENDING	Delete
+918439161267	N/A	PENDING	Delete

Go to the Pending Calls section,

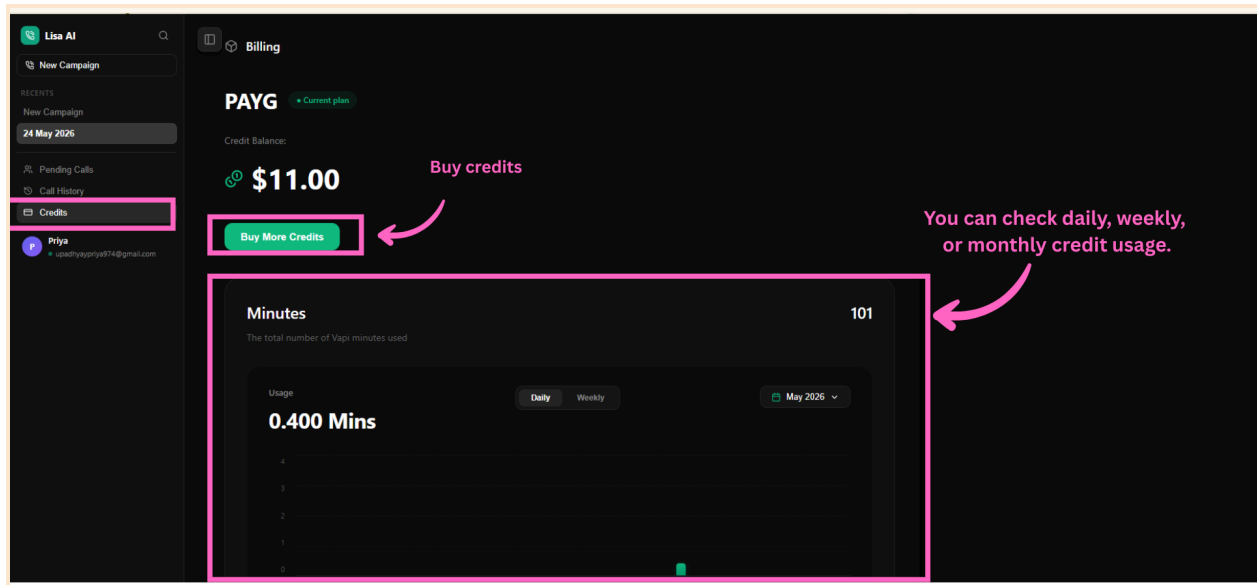

-- Click on the “Run Pending Calls” button

-- Write your script

-- Start running the calls again.

E) Credits

-- Click on the **“Buy Credits”** button to easily purchase credits.

-- Below that, you can check daily, weekly, or monthly credit usage with bar charts.
